NOTE: We recommend using yarns called for in our instructions. Every effort has been made to ensure that directions contained in this book are accurate and complete, however errors do occur. We cannot be responsible for variance of individual knitters, human or typographical errors.

All pattern PDFs are updated when corrections are made. In the event of finding an error, please make sure you've downloaded the most recent version.

NOTE

Before starting to knit, thread the end of the ball of yarn into sewing needle, then thread all of the beads onto the yarn. These beads will stay on your working strand of yarn so that as you work, whenever a bead is called for, you slide a bead up the strand and into place and k the next st (or work a yo as explained in stitch glossary). On the next row, you just knit the st with the bead.

STITCH GLOSSARY

PB – Place Bead, then k the next st Note: If the PB comes at the beg of a row, you will PB, yo which places the bead on the beginning yo.
