Note

How to Work Charts: For X-Small, work between A's. For Small, work between B's. For Medium, work between C's. For Large, work between D's. For 1X, work between E's. For 2X, work between F's. For all sizes, beg with Row 1 of Chart A and work to Row indicated for your size on Chart B. Incs shown at each side of charts should be worked on RS rows as M1p. Decs shown at each side of Chart B should be worked on RS rows as p2 tog. Incs and decs will be worked after marker at beg of charted section and before marker at end of charted section. When you reach Rows 122, 124, 126 and 128 which are marked with sizes at side of Chart B, this means that after working each marked row, if your size is mentioned you should then work 2 rows even, knitting the k sts and purling the p sts as they face you. Do not work decs at each side on either of these 2 even rows. These even rows are needed to give you the proper raglan length. After completing the 2 even rows, continue to follow chart until you reach another row marked with your size. Work that row, then work another set of 2 even rows as before.
