

2015 | HUNT & TACTICAL BOOK

THIS MANY
TACTICAL CHOICES
MEAN YOUR BACK
NEVER GOES UNCOVERED.

From close-range precision to long-range capability, you can trust the deep lineup of Burris tactical offerings to cover every base, and cover them with complete, unfailing certainty. Regardless of weather, climate, lighting conditions or lack thereof, we know what shooters need from their optics to prevail in both competition and in combat. That sound understanding of the shooting arena is exactly what's made Burris a trusted name in tactical optics.

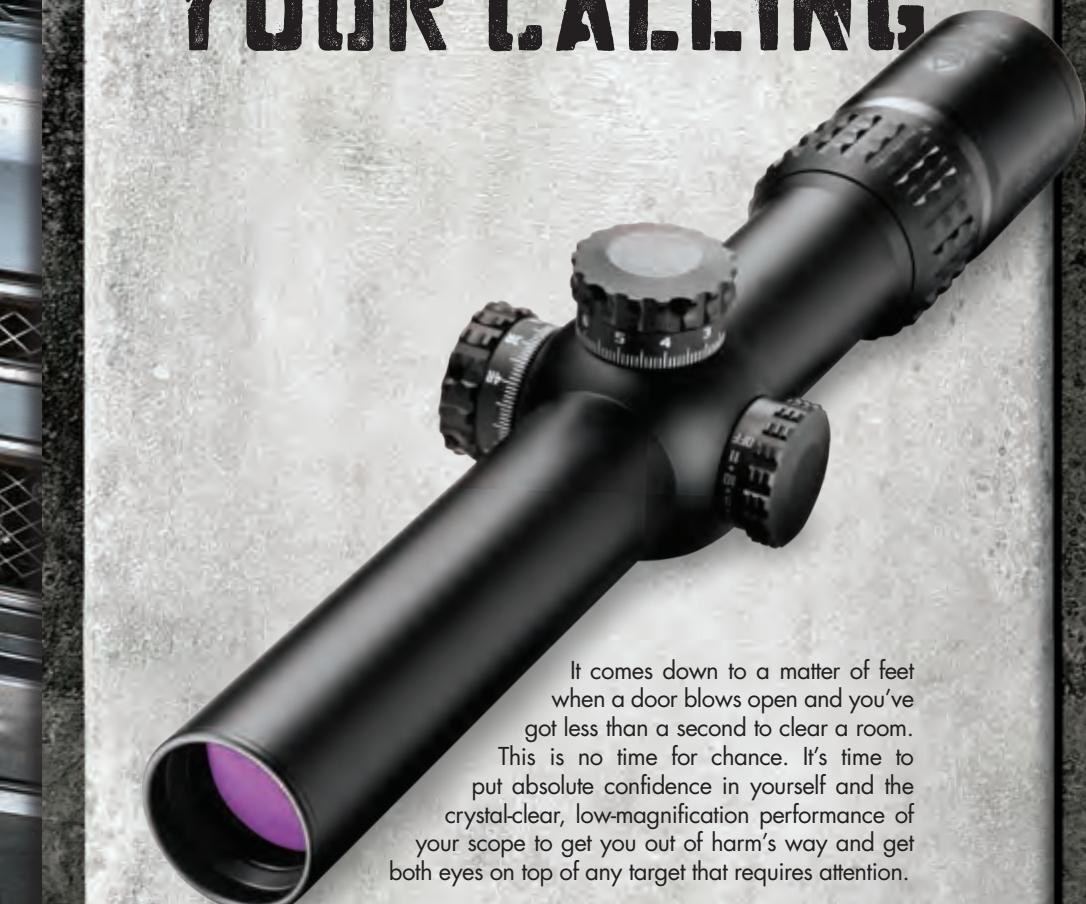

Burris
FIND WHAT MATTERS

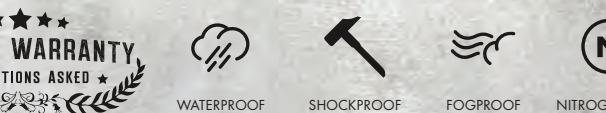

XTR II™ RIFlescopes Series

PINPOINT ACCURACY WHEN CLOSE IS YOUR CALLING

It comes down to a matter of feet when a door blows open and you've got less than a second to clear a room. This is no time for chance. It's time to put absolute confidence in yourself and the crystal-clear, low-magnification performance of your scope to get you out of harm's way and get both eyes on top of any target that requires attention.

SERIES FEATURES

- Versatile 5-times zoom system creates a large field of view at close ranges and excellent target acquisition at longer ranges
- Dimensionally-matched, single-turn windage and elevation knobs have a 1/10-mil click value adjustment and Zero Click Stop

- Rear and dual focal plane reticle designs allow for fast target acquisition and maximum accuracy

- 11 illuminated brightness settings span night vision, low light, and daytime visibility, with a convenient battery-saver position between each setting

XTR II RIFLESCOPE 1-5x24mm

ITEM NUMBERS:
201000, 201002 (COMBO)

RETICLE:
XTR II BALLISTIC 5.56 GEN 3

ITEM NUMBER:
201001

RETICLE:
XTR II BALLISTIC CQ MIL

MAIN TUBE SIZE:
30 MM

- Designed for serious rifle shooters—both tactical and competitive
- Rear focal plane reticle design keeps the reticle size constant, so it's large enough for success with close-quarters shots, yet still performs well for mid-range shooting
- Available combo includes a complete shooting platform at significant savings: XTR II Riflescope 1-5x24mm with XTR II Ballistic 5.56 Gen 3 riflescope, 3-MOA FastFire™ red dot sight, 30mm AR-P.E.P.R.™ mount, and ScopeTube FastFire™ Mount; see the CQB Tactical Kits section for more information

XTR II RIFLESCOPE 1.5-8x28mm

RETICLE:
XTR II BALLISTIC 5.56 GEN 3

ITEM NUMBER:
NEW 201012

RETICLE:
XTR II BALLISTIC CQ MIL

MAIN TUBE SIZE:
34 MM

- Designed for serious rifle shooters—both tactical and competitive
- Dual focal plane reticle design allows crosshairs to change size with magnification so mil measurements and trajectory lines are accurate at any power, while the illuminated center size remains constant; allows fast, easy transitions between close and mid-distance shooting
- Available combo includes a complete shooting platform at significant savings: XTR II Riflescope 1.5-8x28mm with XTR II Ballistic 5.56 Gen 3 riflescope, 3-MOA FastFire™ red dot sight, a 34 mm AR-P.E.P.R.™ mount, and a ScopeTube FastFire™ Mount; see the CQB Tactical Kits section for more information

MTAC™ RIFlescopes Series FOR HUNTING TROPHIES OF THE FIRST-PLACE KIND.

Wins in competitive shooting don't have to come with a four-figure price tag when you outfit any competition gun with the MTAC. Tough, sleek, snag-free, and complete with the clarity of fogproof, glare-resistant glass, they're built for consistent, mid-distance, repeatable shooting with an unmatched level of features and comfort that add up to an extreme value in versatility.

SERIES FEATURES

- Ideal platform for competitive shooters, especially 3-Gun enthusiasts
- Generous eye relief up to 4 inches for comfortable shooting

- Index-matched, Hi-Lume® multicoating aids in low-light performance and glare reduction, increasing your success rate

- Finger-adjustable MTAC mil-rad target knobs for easy precision adjustments

AR RIFLESCOPES™ SERIES

IT KNOWS
AR AMMUNITION
AS WELL AS YOU DO.

Given trajectory compensation is a critical component for accuracy at distance, the AR Riflescopes Series has adjustment knobs specifically calibrated for holdover to match an AR's most commonly fired rounds, the 5.56 mm (.223) and 7.62 mm (.308) rounds. Think of this series as custom AR scopes durably built for ultra-accuracy—with everything except the custom scope price.

SERIES FEATURES

- Match elevation adjustment to your ammunition using the customized adjustment knob
- Automatically compensates for bullet drop when you dial in yardage-to-target; no need for holdover
- WindMap™ helps you determine wind hold-off for your exact cartridge
- The C4 Wind MOA™ reticle has 1-MOA tick marks up to 10 MOA on each side of the reticle so you can easily compensate for wind, using the WindMap values and your own wind speed calculation
- Threaded Anti-Reflection Device (ARD) reduces lens glare for greater concealment to prevent detection

RETICLE

C4 Wind MOA™

MSR RIFLESCOPES™ SERIES

NEXT-LEVEL
PERFORMANCE FOR YOUR
LIFELONG OBSESSION.

Get into the black gun world with a scope that gets both you and your dollar further from the start. Note the reliable, precision-ground, glare-resistant glass that gathers ample light. The tough, shockproof design. Or the simple, elegant trajectory compensating reticle that can be matched to any caliber or bullet weight. And that's just the beginning.

MSR RIFLESCOPE 4.5-14x42mm

MSR RIFLESCOPE 3-9x40mm

ITEM NUMBERS: 200136, 200137 RETICLE: BALLISTIC PLEX™ MAIN TUBE SIZE: 1 in.

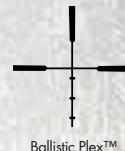

- Available with focus set at 50 yards for .22 LR ammunition
- Available with reticle calibrated for .223 for greater accuracy with popular tactical ammunition

MSR RIFLESCOPE 4.5-14x42mm

ITEM NUMBER: 200195 RETICLE: BALLISTIC PLEX™ MAIN TUBE SIZE: 1 in. ADJUSTABLE PARALLAX: 50 YDS. TO INFINITY

- High magnification extends your long-range shooting capability
- Parallax adjustment for improved accuracy at long distances
- Available with reticle calibrated for .223 for greater accuracy with popular tactical ammunition

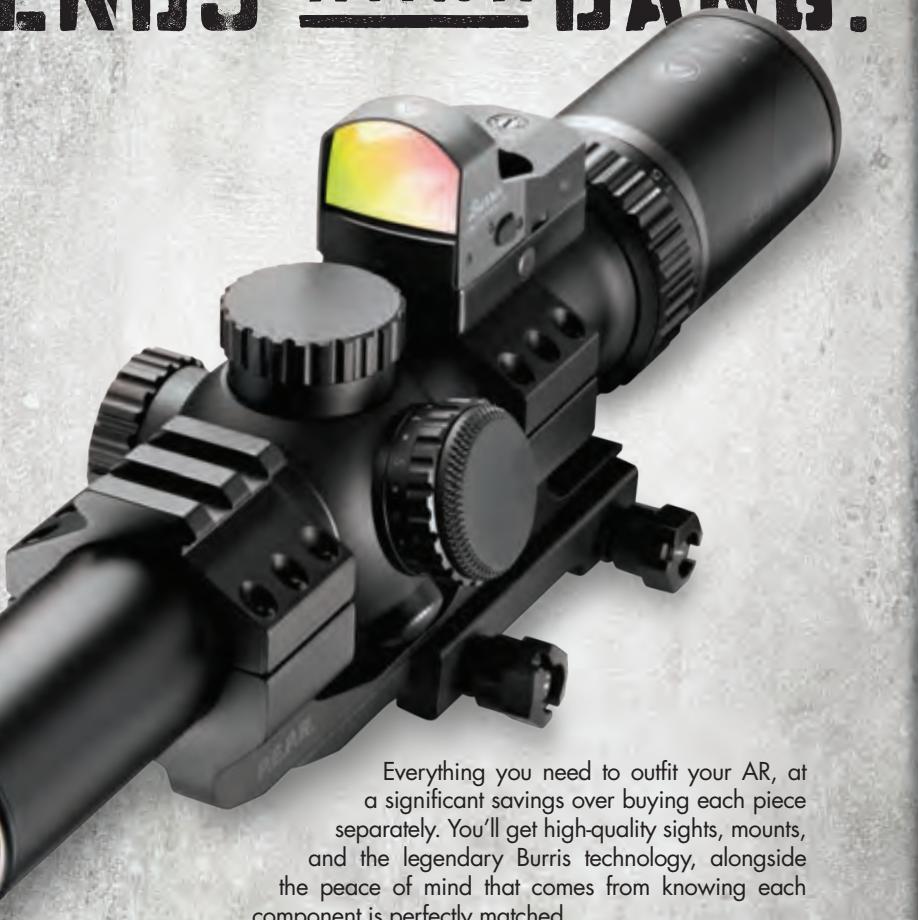

Ballistic Plex™

- Designed for shooters new to tactical rifles, who are ready for an affordable custom tactical riflescope
- High-grade optical glass provides excellent brightness and clarity with lasting durability
- Finger-adjustable windage and elevation turrets create a sleek profile; indications always reflect a change in the point of impact, for pinpoint accuracy
- Index-matched, Hi-Lume® multicoating aids in low-light performance and glare elimination, increasing your success rate
- Threaded Anti-Reflection Device (ARD) reduces lens glare for greater concealment to prevent detection

CQB TACTICAL KITS

PLUG-AND-PLAY AR PACKAGES.
ASSUMING YOUR KIND OF PLAY
ENDS WITH A BANG.

Everything you need to outfit your AR, at a significant savings over buying each piece separately. You'll get high-quality sights, mounts, and the legendary Burris technology, alongside the peace of mind that comes from knowing each component is perfectly matched.

300214
NEW 300219 (COMBO)

RETICLE:
BALLISTIC CQ™-1X

- Fixed 1x magnification with 20 mm objective
- 3 reticle color settings: red, green, and black
- 7 red and 7 green illuminated settings with push-button activation
- Night vision compatible
- 5,000+ hrs of battery life with lithium A battery
- Available combo includes AR-X optic, AR-Pivotal™, and AR-Pivot Ring™, Quick Detach

AR-TRIPLER™

ITEM NUMBERS:
300213
300216 (COMBO)

- Lets you transition between close quarter and mid-distance shooting without swapping weapons or optics
- Adds 3x magnification to any 1x or non-magnified optic
- Pivot ring lets it easily flip to the side with the push of a button, to switch from 3x to 1x shooting
- Windage and elevation adjustments allow complete use of reticle images on partner optics
- Available combo includes AR-Tripler and AR-Pivot Ring™, Quick Detach

AR-PIVOT RING™, QUICK DETACH, 30 MM

ITEM NUMBER:
420168

- Lets you quickly and easily mount the AR-Tripler in-line behind non-magnified objects
- Flips to the side with the push of a button for 1x shooting; manually pushes back into the upright position for longer shots
- Automatically locks into place for secure shooting
- Installation and removal is easy with the quick-detachable mount

ANTI-REFLECTION DEVICE

ITEM NUMBERS:
626004
626005

- Threaded anti-reflection devices (AR-Ds) reduce lens glare and provide greater concealment to prevent detection
- Available to fit AR-32 (62504) or AR-36 (62605)

SERIES FEATURES

- Made for competitive shooters, law enforcement personnel, and military operators
- Provides additional range from a compact, fast-acquisition optic
- Rugged construction withstands recoil, abuse, and all types of weather

RETICLES

FASTFIRE™ SERIES

IF YOU CAN SEE IT, YOU CAN JUST IT.

Light and tough, the FastFire series puts an unmistakable, bright red dot on your target to give you an immediate speed and accuracy advantage. Can be used as a primary sight or paired on top of an existing sight.

SERIES FEATURES

- Bright red dot allows for fast target acquisition and easy aiming
- 1x magnification allows for both-eyes-open shooting, for enhanced awareness and target acquisition
- Parallax-free, for better accuracy

FASTFIRE 2

ITEM NUMBERS:
300232, 300233

DOT SIZE:
4 MOA

- Automatic brightness sensor adjusts brightness to match the environmental conditions
- Available with Picatinny mount for mounting on rifles, handguns, and tactical shotguns

FASTFIRE 3

ITEM NUMBERS:
300234, 300235

DOT SIZE:
3 MOA

- Automatic brightness sensor adjusts brightness to match the environmental conditions; also has 3 manual brightness settings
- Battery access is conveniently located on the top of the sight; automatic time-out feature helps battery last up to 5 years
- Available with Picatinny mount for mounting on rifles, handguns, and tactical shotguns

ITEM NUMBERS:
300236, 300237

DOT SIZE:
8 MOA

- Mounts to almost anything—including handguns, rifles, and shotguns—and the shockproof design stands up to years of punishing recoil
- Windage and elevation adjustments make fine-tuning easy

MOUNTS

AR-F3™ MOUNT

ITEM NUMBER:
410348

DOT SIZE:
3 MOA

- Simplest, most effective way to mount any FastFire sight on an AR flattop
- Metal wings protect the lens from impact and unintentional abuse
- Allows the FastFire to mount at the optimum height, so the red dot can co-witness with flip-up sights

PICATINNY PROTECTOR MOUNT

ITEM NUMBER:
410330

- Protects any FastFire sight from impact or abuse
- Use when mounting a FastFire on pistols, rifles, or shotguns, for extra protection and peace of mind

SCOPE TUBE FASTFIRE™ MOUNTS

ITEM NUMBERS:
410337, 410338, 410339

- Positions a FastFire sight in nearly any radial position on a primary optic
- Allows primary optic to remain at a higher magnification as you quickly switch to a FastFire sight for ultra-fast, close-quarter target engagement
- Compatible with high-power primary optic for long-range target acquisition and weapon alignment
- Available in 1, 30, or 34 mm

SCOPE LINEUP

deeper than the BS

AROUND THE CAMPFIRE.

You know exactly what you need from a scope: A filled tag and the kind of dinner that doesn't taste store-bought. Whether it's a reticle capable of long-range confidence, optic qualities that light the way in the darkest hour, or technologically intense reliability when the weather's coming in sideways, there's one name in optics hunters have trusted their success to for over 40 years and counting.

hunting Guides
AREN'T THIS CALCULATING.

ELIMINATOR III LASERSCOPE 3-12x44mm

ITEM NUMBER:
200120

RETICLE:
X96 RETICLE

ADJUSTABLE PARALLAX:
50 YDS. TO INFINITY

- The lowest magnification in the series provides a compact, lightweight option
- Strong, low mounting system with its own base; no rings required
- Reticle displays a 10 m.p.h. wind value to indicate wind holdoff for your specific cartridge at the indicated range to target; you estimate the actual wind speed and use the Wind Value as a guide to determine the number of dots to hold into the wind

ELIMINATOR III LASERSCOPE 4-16x50mm

ITEM NUMBER:
200116

RETICLE:
X96 RETICLE

ADJUSTABLE PARALLAX:
50 YDS. TO INFINITY

- High magnification demands your long-range shooting capability
- 50 mm objective allows for maximum light collection
- Strong, low mounting system with its own base; no rings required
- Reticle displays a 10 m.p.h. wind value to indicate wind holdoff for your specific cartridge at the indicated range to target; you estimate the actual wind speed and use the Wind Value as a guide to determine the number of dots to hold into the wind

Series Features

- Customized trajectory compensation calculates the perfect holdover at your exact distance; program your cartridge's ballistics information, push a button, and a bright red, illuminated dot signifies your new aiming point within seconds
- Built-in laser rangefinder features 1,200+ yds. ranging capability
- Trajectory compensation is accurate at any magnification
- Integrated inclinometer compensates for shots at any uphill or downhill angle

Series Features

- Versatile five-times zoom system provides a larger field of view at close ranges and easier target acquisition at long ranges
- Front focal plane reticle design allows the reticle size to increase or decrease as magnification is increased or decreased; trajectory compensation is always correct for the selected power setting
- Advanced windage and elevation adjustment is accurate and repeatable, and matches the reticle's MOA measurement system
- Progressively Thick Crosshairs (PTC) are very fine at the reticle center and progressively thicker away from the center, for ultra-fast target engagement at close ranges and in low light; effective at any magnification

---	--	---

Series Features

- High-grade optical glass provides excellent brightness, clarity, and lasting durability
- Quality precision-ground lenses are larger than those of comparable scopes, for better light collection
- Index-matched, Hi-Lume® multicoating aids in low-light performance and glare reduction, increasing your success rate
- Finger-adjustable windage and elevation turrets create a sleek profile; indications always reflect a change in the point of impact for pinpoint accuracy
- Simple, rugged reticles have holdovers for precise shots at extended ranges

SCOUT RIFlescopes SERIES

FAR MORE

than meets the Eye.

EITHER ONE OF THEM.

Specifically designed to match scout rifles, our slim, compact optics give you low to medium magnification with your eyes as far back as 18 inches. Placed well forward on the rifle, you'll get—and keep—both eyes perfectly on targets both moving and still. And when that happens, well, we all know what goes down next.

FOREVER WARRANTY
NO QUESTIONS ASKED

Series Features

- For shooters who need a working rifle or fighting carbine and use the multi-purpose scout rifle, a concept developed by the legendary Col. Jeff Cooper
- Compact and lightweight, so it's easy to carry your rifle in the field

WATERPROOF **SHOCKPROOF** **FOGPROOF** **NITROGEN-FILLED**

SCOUT RIFLESCOPE 2-7x32mm

• Variable power for versatility and improved accuracy at longer distances

SCOUT RIFLESCOPE 2.75x20mm

ITEM NUMBER: **200269** MAIN TUBE SIZE: **1 in.** RETICLE: **HEAVY PLEX**

• Fixed 2.75x power, the perfect magnification setting for both-eyes-open scout rifle shooting

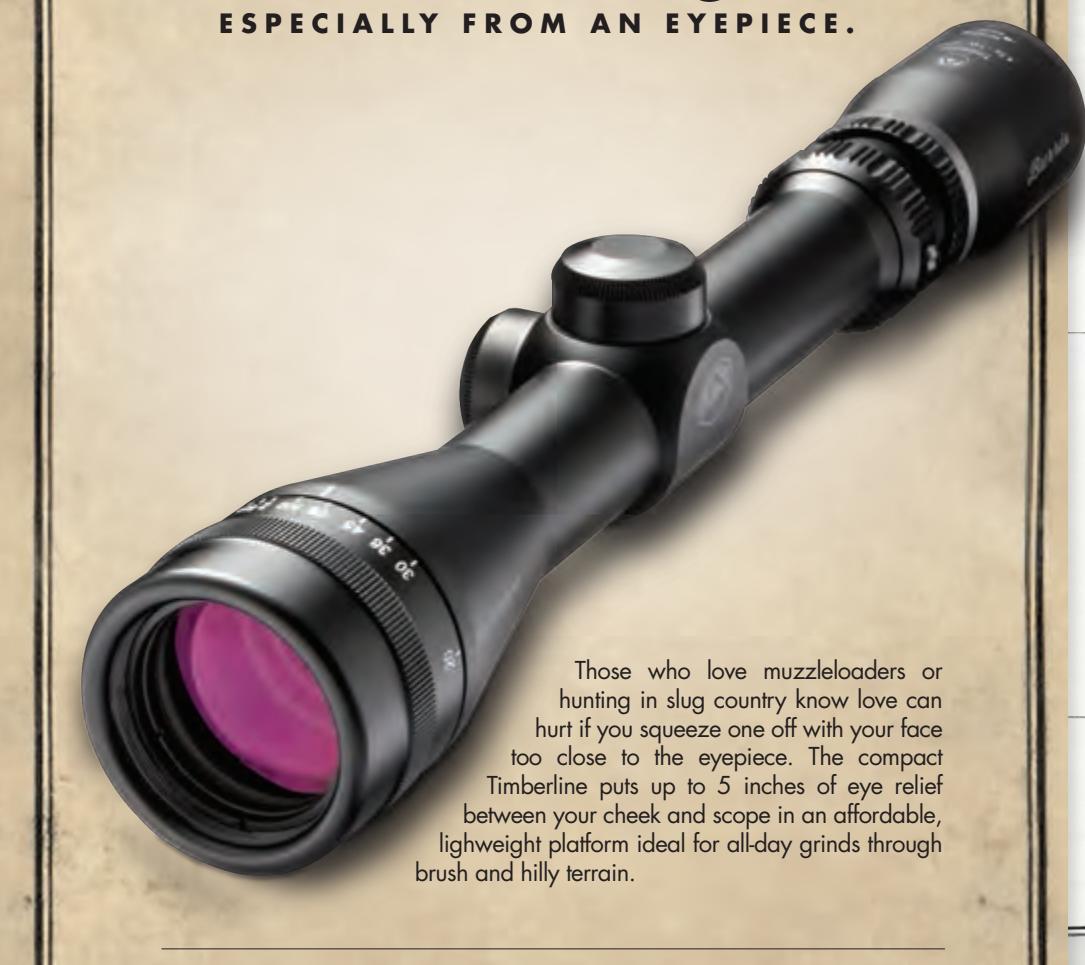

TIMBERLINE™ RIFLESCOPES SERIES

YOU NEVER FORGET

your first Kiss.

ESPECIALLY FROM AN EYEPIECE.

Those who love muzzleloaders or hunting in slug country know love can hurt if you squeeze one off with your face too close to the eyepiece. The compact Timberline puts up to 5 inches of eye relief between your cheek and scope in an affordable, lightweight platform ideal for all-day grinds through brush and hilly terrain.

FOREVER WARRANTY
NO QUESTIONS ASKED

Series Features

- Compact for easier hunting in mountainous terrain or heavy brush
- Up to 5 inches of eye relief keeps heavy recoiling riflescopes away from your face; perfect for muzzleloaders, slug guns, mountain rifles, and quality rimfire rifles

Heavy Plex

HANDGUN SCOPES SERIES

EATS BIG RECOIL

Like a
HAPPY-HOUR MOZZARELLA STICK.

Given handgun hunters employ some seriously impressive calibers, these exceptionally precise, durable and reliable scopes are purpose built with superb recoil absorption that retains scope accuracy. Multi-coated lenses max out contrast in low-light, eliminate glare, and offer long eye relief for quick target acquisition.

HANDGUN SCOPE 2x20mm

ITEM NUMBERS: **200218, 200229**
RETICLE: **PLEX**
MAIN TUBE SIZE: **1 in.**

- Most compact configuration in the product line
- Available with matte or nickel finish

HANDGUN SCOPE 2-7x32mm

ITEM NUMBERS: **200279, 200299** ITEM NUMBERS: **200291, 200298**
RETICLE: **BALLISTIC PLEX™**
MAIN TUBE SIZE: **1 in.**

- Variable 2-7x magnification offers greater field versatility
- Available with matte or nickel finish
- Available Posi-Lock™ system uses a retractable steel post in addition to the springs of a conventional adjustment system, to keep the point of aim firmly in place under the harshest recoil

HANDGUN SCOPE 3-12x32mm

ITEM NUMBER: **200309**
RETICLE: **BALLISTIC PLEX™**
MAIN TUBE SIZE: **1 in.**
ADJUSTABLE PARALLAX: **25 YDS. TO INFINITY**

- Large magnification extends your long-range shooting capability
- Parallax adjustment for improved accuracy at long distances

Series Features

- Compact, lightweight scopes with long eye relief create the perfect platform for handgun hunting
- Double internal spring-tension system allows the scope to hold zero through shock, recoil, and vibrations
- Durable, stress-free, solid 1-piece outer tube withstands shock and vibrations of even the heaviest-recoiling calibers
- High-grade optical glass provides excellent brightness and clarity and lasting durability

RINGS, MOUNTS, RETICLES,
AND ACCESSORIES

SOLID

Foundation

FOR SUCCESS.

Burris has built a reputation for some of the most solid, reliable rings and bases on the market, and our quality reticles and accessories complete the perfect shooting solution. You'll stay on target round after round with gear from Burris.

Burris
FIND WHAT MATTERS

RINGS AND MOUNTS

ROCK SOLID

for a
REASON.

Hunters and tactical shooters count on Burris mounting solutions, with a wide variety of options that securely mount a riflescope onto any Weaver or Picatinny-style rail. These rings and bases provide long-lasting holding power and durability for hunters, on-duty officers, and competitive shooters.

AR-P.E.P.R.™ MOUNTS

- Full ring and base mounting solution in one
- Allows up to 2 inches of forward scope positioning
- Provides optimum eye relief and full field of view
- Includes both smooth and Picatinny ring tops
- Quick-detach models allow for fast mounting

Item	Size	Weight	Dimensions					Quick Detach

RETICLES

NO-GUESS SUCCESS

at
ANY DISTANCE.

Reticles take the guesswork out of target size and distance, wind hold-off, and holdover. There's a quality Burris reticle with features for every shooting challenge.

THE RIGHT FOCAL PLANE FOR THE SHOT

FRONT FOCAL PLANE

Front focal plane (FFP) reticle design, also called first focal plane, places the reticle in front of the zoom mechanism, allowing the reticle size to increase or decrease as magnification is increased or decreased.

Trajectory compensation and reticle measurements are always correct and proportional for the selected power setting.

Uses: Mid- to long-range competitive and tactical shooting; big game, varmint, and predator hunting; and any mid- to long-range hunting

REAR FOCAL PLANE

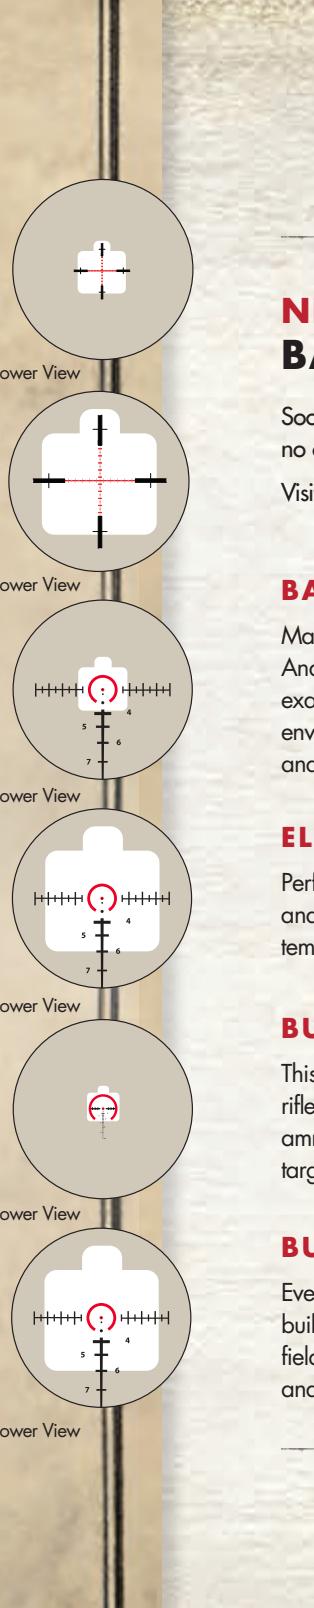

Rear focal plane (RFP) reticle design, also called second focal plane, places the reticle behind the zoom mechanism so the reticle size stays constant at every magnification. The reticle remains large enough for successful close-quarter shots, and still performs well for mid-range shooting, though trajectory compensation and reticle measurements will only be correct at one magnification setting (normally high power).

Uses: Ultra-fast target engagement at short distances, as well as mid-range and extended-range shooting

DUAL FOCAL PLANE

Dual focal plane (DFP) reticle design separates the center aiming point and the crosshairs of the reticle, placing the center in the RFP and the crosshairs in the FFP. This allows the crosshairs to change size with magnification so mil measurements and trajectory lines are accurate at any power. The size of the illuminated center remains constant, for fast, easy transitions between short- and mid-distance shooting.

Uses: Competitive and tactical rifle shooting

NEW FOR 2015: BALLISTICS CALCULATORS

Soon you can use any of these ballistics calculators at no charge on our website.

Visit burrisoptics.com/customer-service/ballistics-services.

BALLISTIC RETICLE ANALYSIS TOOL

Maximize your reticle's potential with the Burris Ballistic Reticle Analysis Tool. Use this calculator to fine-tune your aiming to your exact ammunition, and compensate for wind, altitude, or other environmental conditions. Build the perfect ballistic calibration chart and shoot with absolute confidence.

ELIMINATOR CALCULATOR

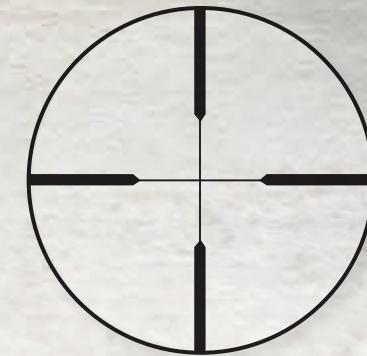

Perfectly program your Eliminator® LaserScope® for any cartridge and load. Compensate for environmental conditions, such as altitude, temperature, and humidity, so you can hit the mark shot after shot.

BURRIS CUSTOM KNOBS

This easy-to-use tool helps you order a custom knob for your Burris riflescope, so you can match elevation adjustment to your favorite ammunition. With a custom knob, you dial in the distance to your target and say goodbye to holdover.

BUILD A DOPE CARD TOOL

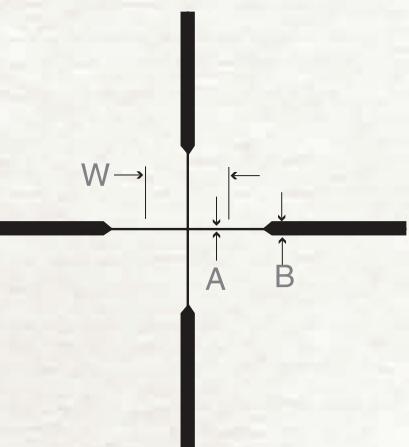

Every great shooter has a dialed-in dope card. Burris can help you build yours so you can correctly react to any shooting condition in the field. There's no better way to fully understand your bullet's trajectory and how it will respond to varying environmental conditions.

PLEX

- Simple reticle
- Thin crosshair with bolded edges is highly visible
- Quick and easy to use
- Lets you zero in on animals of nearly any size

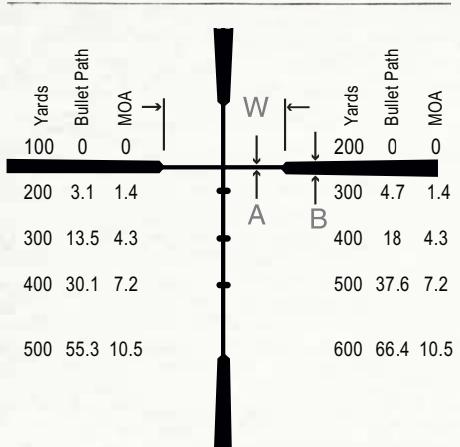

DETAIL

BALLISTIC PLEX™

- The most simple, effective, and elegant trajectory-compensating reticle
- Perfect choice for long-range target shooters, varmint shooters, and tactical marksmen
- Can be matched to any caliber or bullet weight for long-range accuracy

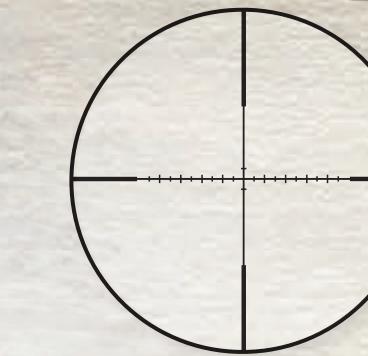

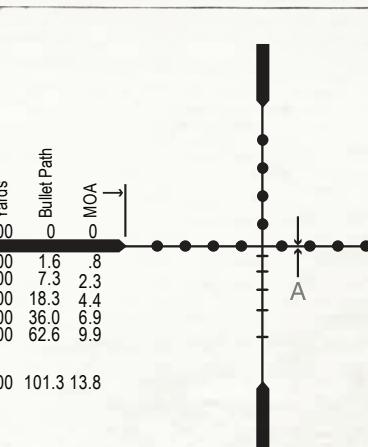

DETAIL

BALLISTIC MIL-DOT

- Ideal for very flat-shooting cartridges
- Perfect choice for long-range target shooters, varmint shooters, and tactical marksmen
- Mil-dots can be used for estimating range and target size, and help compensate for wind drift

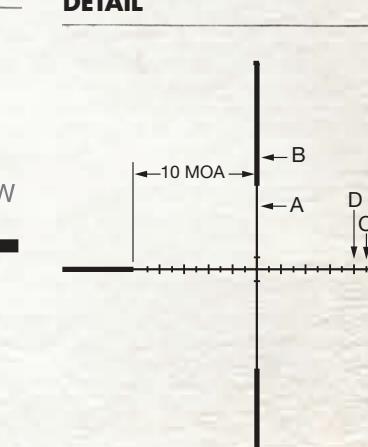

DETAIL

C4 WIND MAP™

- Clean, simple reticle works perfectly with custom elevation knob and WindMap™ on the AR Riflescope platform
- 1 MOA tick marks allow easy compensation for wind drift

ACCESSORIES

SOMETHING EXTRA

for The
SERIOUS SHOOTER.

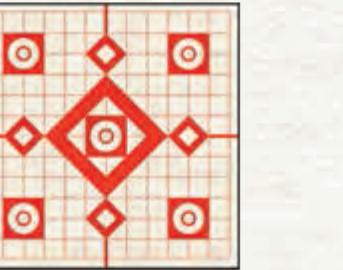

Give yourself the performance edge with these quality Burris accessories. Say goodbye to glare, dust, and dings with a Burris Sunshade, Scope Cover, and Lens Pen. And make your practice perfect with Burris Targets.

LENS PEN

Item Number: 626050

- Retractable soft brush gets rid of lens dust and debris
- Chamois pad at the opposite end is impregnated with self-replenishing cleaning compound to purge lenses of oils, fingerprints, and moisture

BURRIS TARGETS

Item Number: 626001

- 10 targets per package
- 13 in. x 13 in.
- Nine primary aiming spots in various sizes and shapes for different yardages and scope magnifications
- Non-glare red-orange graphics pop against the off-white, non-reflective background so you can easily detect bullet holes
- Designed for shooters by shooters

BURRIS SCOPE COVER

- Effectively protects against dust and dings between trips to the range or hunting grounds
- Super-soft fabric is waterproof and breathable to prevent corrosion and fogging

BURRIS SUNSHADES

- High-quality sunshades reduce or eliminate glare on the brightest days
