

Lanlang® FALK+

Alkaline Antioxidant Water Filter Cartridge
Upgrade your water

- IMPROVE ODOR & TASTE
- ANTIBACTERIAL EFFECT > 99%
- ALKALIZATION PH: 7.0 ~ 9.0+
- RELEASE BENEFICIAL MINERALS
- ANTI-OXIDABILITY: ORP 0 ~ -300MV

PRODUCT DESCRIPTION

Lanlang® FALK+ filter is an inline cartridge for reverse osmosis systems with a various of NSF certified Minecera® Bio Ceramics and coconut shell charcoal media. ALK+ filter is capable of increasing the pH value after RO system up to 7.0-9.0+ and reducing the ORP value reach to -150mV ~ -300mV, which also can improve the odor and taste. FALK+ filter replaces lost minerals such as ionized calcium, magnesium, sodium, potassium ion from the RO process and restores these minerals back into the pure water. Typically installed with RO systems to complement their absolute filtration quality.

FUNCTION

Item	RO Water	FALK+ Water
ORP(mV)	100 ~ 200	↓150 ~ -300
pH value	6.0 ~ 7.0	↑ 7.0-9.0+
TDS(ppm)	20 ~ 40	↑ 40 ~ 60

SPECIFICATION

11 inch

2.5 inch

Model: Lanlang® ALK+

Life time: 8000 liters

Maximum flow: 4 LPM (1GPM)

Maximum pressure: 120 PSI

Max temperature: 100 °F (38 °C)

Min temperature: 35 °F (2 °C)

Burst pressure: 500 PSI

Customized Size: 8"/9"/10"/20"

PACKAGING

- ◆ Gross weight: 540g per piece
- ◆ Package: 25 pcs per carton(G. Wt: 15 kgs/carton)
