

# SECTION 1000-GENERAL SPECIFICATIONS

---

## **CARPET MAINTENANCE & CLEANING**

### **VACUUMING EQUIPMENT**

The manufacturer recommends an upright heavy-duty commercial vacuum with a “Beat and Sweep” beater bar. The Pile Height Level Setting, the amount of suction, the beater bar and the vacuum bag should be checked periodically to ensure that the vacuum is performing properly.

### **VACUUMING FREQUENCY**

Heavy traffic areas, walk off areas and pivot areas should be vacuumed as needed, or at least daily. Moderate traffic areas can be vacuumed every other day.
