

SECTION 3000-FIXTURE ASSEMBLY

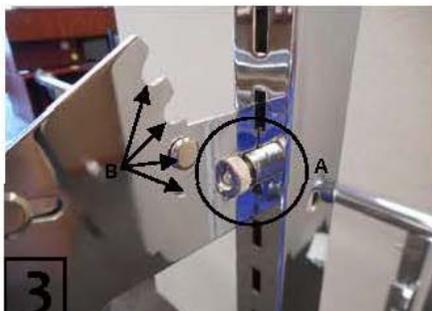

SINGLE SHOE SHELF FOR H-RACK

1 Saddle "Upright Bracket" over existing H-Rack.

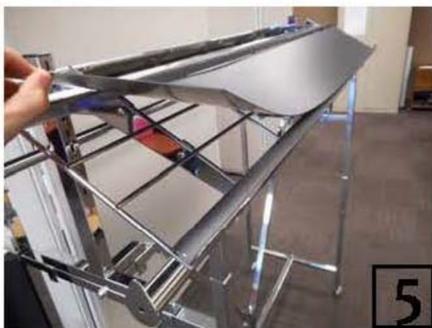

2 Once the "Upright Bracket" is in place it will need to be secured with a nut and bolt (included). As shown above

3 Tighten the friction bolt (A) to secure the "Shoe Shelf". Then, adjust the angle of the "Shoe Shelf" (B) to get the desired angle

4 Place black plastic cap on the "Upright Bracket"

5 Lay the black styrene sheet in the shoe shelf to prevent shoes from slipping through.

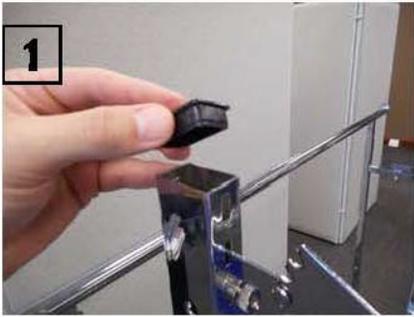

KEEP THESE PARTS!!

The "Extension Bars" and hardware are for future double stacking shoe shelves

SECTION 3000-FIXTURE ASSEMBLY

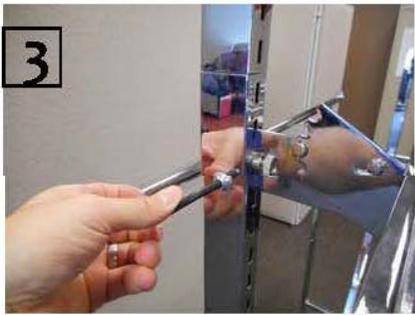

TWO TIER SHOE SHELVES FOR H-RACK

1 Remove black plastic cap from “Upright Bracket” to make room for the “Extension Bar”

2 Insert “Extension Bar” back into the existing “Upright Bracket”

3 Secure “Extension Bar” w/bolt and washer

4 Add additional shoe rack w/black styrene to finish off Two Tier Shelf

5 Insert black plastic cap that was removed from step 1 into the new “Extension Bar”

6 Finished Two Tier Shelf
