

SECTION 1000-GENERAL SPECIFICATIONS

COMPUTER

NETWORK CABLE:

Enclose as much of the cable as possible in PVC pipe to protect it from wear. If network cable gets stepped on, wet or kinked, there is a very good possibility it will not work. Do not run the cable through the same conduit as electrical or telephone wire. This could cause interference in the computer network. If the cable needs to be run across the ceiling, keep the cable at least 6 feet from fluorescent lights. If you must cross fluorescent lights, do so at a 90-degree angle.

POWER:

The computer outlet should be a dedicated 20A circuit with isolated ground, orange in color, to distinguish it from the others. If you have a computer in an office or other workstation away from your main P.O.S. counter, they should be on the same circuit. If your computer is not plugged into a battery backup unit, you need to have the computer, monitor and printers plugged into a surge strip designed for computer equipment. The computer with your modem should have a phone surge plug as well.

PAINT

Paint is Sherwin Williams brand and is to be purchased by the store owner.

- Morris Room Gray #SW0037 semi-gloss or eggshell (wall behind P.O.S.)
- Natural Choice #SW7011 semi-gloss or eggshell (all non-P.O.S. and non-Focus Area)
- Porpoise #SW7047 semi-gloss or eggshell (Focus Area)

**Paint doors and door frames the same color as corresponding walls.

***See your elevation drawings (F2) for specific directions for your store

CARPET

The carpet for your new store is a patterned commercial carpet. Therefore, special consideration must be given when choosing a carpet installer. The carpet mill will not honor claims for carpet installed by non-certified installers.

Installation Qualifications: Patterned Carpet Installation should be accomplished by a Floor Covering Installation Board (FCIB) certified firm or an installer who can demonstrate compliance with the FCIB certification program. Call 800-882-8846 for verification or certification. Another option is to visit www.cfiinstallers.com Other valid certifications are Floor Covering Installation Contractors Association (FCICA) and the International Certified Floor Covering Installers Association (CFI). The installer must meet or exceed C-1 or C-2 classification.
