

SECTION 1000-GENERAL SPECIFICATIONS

CARPET MAINTENANCE & CLEANING

VACUUMING EQUIPMENT

The manufacturer recommends an upright heavy-duty commercial vacuum with a “Beat and Sweep” beater bar. The Pile Height Level Setting, the amount of suction, the beater bar and the vacuum bag should be checked periodically to insure that the vacuum is performing properly.

VACUUMING FREQUENCY

Heavy traffic areas, walk off areas and pivot areas should be vacuumed as needed, or at least daily. Moderate traffic areas can be vacuumed every other day.
